National figures include all schools with pupils eligible for assessment at Key Stage 2. Participation by independent schools is voluntary, therefore only includes results from those independent schools which chose to make a return, and which met the statutory standards for assessment and moderation.

¹The % of students achieving a High Score (HS) is the subset of the % of students who Achieved the Standard (AS) with a Scaled Score of 110 or more, so the total of students including this figure will total to more than 100%.

Maths results are very disappointing- our year 6 Maths teacher was unexpectedly off for the 5 weeks prior to SATs, we believe this had an impact on the children especially those who were secure as expected apart from in test conditions. These are under confident children, mainly girls who have all received intervention throughout KS 2. Teacher assessment for these children are all expected. Despite these mitigating circumstances school has added a new target for Maths for the academic year 24/25.
